- *Testimony on the development of a state-of-the-art proton therapy center*
Craig W. Stevens, MD, PhD, Chair of Radiation Oncology, Beaumont Health System
- *North America PT market dynamics*
Beth Klein, Executive Vice President at IBA North America.
- Question and answer session with all speakers
- Optional tour of IBA's booth, # 2135, from 4pm

About IBA

IBA (Ion Beam Applications S.A.) is a global medical technology company focused on bringing integrated and innovative solutions for the diagnosis and treatment of cancer. The company is the worldwide technology leader in the field of proton therapy, considered to be the most advanced form of radiation therapy available today. IBA's proton therapy solutions are flexible and adaptable, allowing customers to choose from universal full-scale proton therapy centers as well as compact, single room solutions. In addition, IBA also has a radiation dosimetry business and develops particle accelerators for the medical world and industry. Headquartered in Belgium and employing about 1,500 people worldwide, IBA has installed systems across the world.

IBA is listed on the pan-European stock exchange NYSE EURONEXT (IBA: Reuters IBAB.BR and Bloomberg IBAB.BB). More information can be found at: www.iba-worldwide.com
